MATERIALS AND FINISHES

Structure

Aluminum tube 30x2 mm in diameter painted white RAL 9002, silver RAL 9006 or black RAL 9005.

Ten hangers in matt, shiny or black chrome-plated brass. They are fixed with screws to the tube.

Conical-shaped cast iron base, 300 mm in diameter and painted with microtextured epoxy in white RAL 9002 or black RAL 9005. A circular rubber is positioned in the lower part of the base to protect the floor.

ACCESSORIES

Hangers

They are made of an injected piece by transparent polycarbonate and a chromed iron hook, rounded at the edge to avoid any damage on the clothes hanged on it. This component is placed on the mould when it is injected, thus achieving a single piece. They are supplied in 6 - unit packs.

MAINTENANCE

Clean with a damp cloth with mild soap and water. Rinse and dry with a dry cloth. Avoid the use of abrasive products.
